

Dear Families,

Welcome to the April addition of our Newsletter.

What a busy fun packed month March has been with children celebrating World Book Day and also making delicious pancakes. Our Discovery Day was a success and we hope you were inspired to find out 'What a day at Nursery is like for your child'.

Our provocation has been Springtime and seasonal change with lots of our experiences reflecting the wonders of nature and beauty in springtime.

The team are planning some lovely Easter experiences for the children. We are looking forward to sharing our Traditional Easter egg hunt and games in the springtime sunshine with you all on the 18th April.

Kind Regards

Lynn Wordsworth
Nursery Manager

Dates for your Diary

- 18th April
Easter Egg Hunt
and games 6-7pm
- **We are closed** 19th April
Good Friday and 21st April
Easter Monday.

Babies

Its been a busy fun filled month in the Baby Room. We have been exploring the beautiful flowers in our garden and how things grow and blossom in Spring. We have explored movement through our Spring song and music times. We have been exploring textures and art media in our messy play, arts and crafts to make some very special Mothers Day gifts.

Toddlers

We have been looking at Spring. Exploring the natural environment with walks in the park and created our own duck ponds with playdough. In the garden we have been finding bugs in their habitats, looking at the foliage they use. We have been learning our colours through seasonal and enhanced our sensory experiences with messy sensory play. We have also explored movement with music following instructions, moving fast and slow.

Transition

We have been spending a lot of time exploring the garden tidying the growing areas in preparation for sowing vegetable seeds and then planting the seeds to grow a variety of vegetables. We have started to plant sunflower seeds and have been talking about the sun, water and soil helping them to grow. We have been learning about healthy snacks and how they help us run fast and grow strong.

Kindergarten

We had lots of fun making pancakes and needed Jeremy's cooking advice! Spring provocations led us to think about seasonal colours and this has made us explore how colours mixed together can make other colours. The children have been using a variety of materials to create their own springtime collages.
